## **30-40 Gold per Hour - Farming Guide**

The 40g an hour exploit down in SM is 20g off, maybe for a level 60 rogue earning 40g an hour would be easy (doubtful) but I ran it for an hour and came out 20g richer, ran it for another hour and came out 60g richer because I made the strategy change a little Smile

Im an enchantedr so basically I disenchant every blue, 95% of blues in Scarlet Monastery disenchant to Small Radiant Shards, now if you dont know, that is biggest ingredient in Demonslaying and on my server I can sell 10 fast for 40g. If I auction them in stacks of 1 I could prolly make more.

What about the other 5% of blues I hear you asking? Well they disenchant to Large Glowing Shards, the key ingredient in +5 Weapon Damage for 2H Weapons and +3 for 1H, both enchants sell for 5g, but the shards can sell for the same.

So in 1 run (I stop at 10 Small Radiant Shards prolly 35 - 45mins):

10 Small Radiant Shards = 40g  
5 Large Glowing Shards = 20g  
Various Greens = 5 - 10g (NPC)

If your not an Enchanter then you can still earn a nice little bit of money, probably around 20g since I added the co-ordinates to all of the bosses in the Monastery.
